

The General Land Use Plan for Kampala Capital City (2024-2040) was prepared by revising the integrated land use plan prepared in Kampala Physical Development Plan (KPDP) 2012. See Plan Map 4. The General Land Use Plan (2024-2040) can be used as an important tool to guide the formulation of detailed physical development plans in Kampala Capital City.

### Legend

- |                      |  |   |
|----------------------|--|---|
| Kampala City         | <b>Land Use Category</b>                       | Mixed Use - High Density (Comm and Residential)   |
